

# Grow and make your business easier.

## What is SafedoorPM?

SafedoorPM is a cloud-based software tool that helps door dealers market, perform and manage preventive maintenance (PM) work for:

- ▶ **Commercial & Industrial Doors**
- ▶ **Loading Dock Equipment**
- ▶ **Residential Garage Doors**

Technicians use SafedoorPM's powerful **Mobile App** to guide and record PM work, service coordinators use the **Dealer Portal** to simplify PM program management, and customers get comprehensive, secure record-keeping through the **Customer Portal**.

SafedoorPM is easy for dealers to implement, available as a subscription service with no up-front costs, and creates an immediate positive impact on sales, operations and customer service.

## What SafedoorPM dealers are saying ...

"SafedoorPM has helped us gain new customers and open up new markets. It's been an incredibly effective tool in driving growth and making operations more efficient and easier to manage."

*Sandy Martin - MGM Automated Doors*

"Since we starting using SafedoorPM, we've added two new service trucks to handle the increased business."

*Jeff McCallum - Leduc Overhead Door*

## Mobile App

*Eliminates paper checklists, improves technicians' productivity & consistency*

**Technicians** use SafedoorPM's mobile app to perform and record PM work:

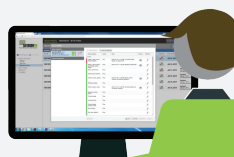

- Each door is uniquely ID'd and profiled.
- An on-board expert system (DEXSYS) provides custom PM checklists and detailed work instructions.
- Techs can input detailed notes and attach photos.
- Every doors' complete PM history is accessible.

## Dealer Portal

*Simplifies PM program tracking, reporting & management*

**Service coordinators** use the dealer portal to track, organize and manage PM work. The dealer portal provides PM scheduling, comprehensive reporting, and the PM history for all doors.

## Customer Portal

*Gives customers hassle-free, cloud reporting*

SafedoorPM lets you give customers PM records however they want - printable pdf files, or 24/7 cloud access through SafedoorPM's secure Customer Portal.
